

## The Roncol Compact Commercial Pump

*Available* in standard (50 Lpm), or High Speed (80 Lpm) versions.

Single sided display, auto cut-off nozzles, auto nozzle operated reset and start. Optional safety breakaway swivels. Pulse output for Fuel management systems. Maintenance free plastic coated 'zintec' steel panels. Stainless steel panels also available.

*The New Roncol Compact Commercial Pump* is extremely cost effective for basic fuelling requirements.

Available with either front loading nozzle for Tank cabinet installation, or side nozzle stowage for fuelling on either side of an island.
